

Dear Sir, I'm on the road all the time and XM Radio is my way of keeping up with the news and weather. It seems to me that there are still enough people that don't have XM listening to their own stations and enjoying the same things I am getting. I love the fact that I don't have to take my mind off of my driving to hunt for news and weather every time I get out of range of the local stations. Traffic and weather reports are very important to me in my work as it provides information that I need to continue my work in a timely manner. I should be able to listen to what I want and that is why I subscribe to XM radio and pay dearly for the priviledge. I listen to XM because I have choices of the music and news and weather that I want to hear and there are no "big boys" telling the jockeys what to play. XM is the best thing to happen to radio entertainment in years. I urge the FCC to reject the NAB's petition 04-160 in favor of the public. Thank you.
